Welcome

Welcome to our new home! For some of you, this will be your first time at a convention. I envy you. Stepping into a world of fun and games and fans and friends for the first time is an amazing experience. Even those of us who are "veterans" of the convention culture remember our first time, that amazing feeling when you discover that not only were you not alone in your hobbies and humor, there are thousands of others who share this joy at conventions around the country. Together we build a community; we accept each other as we are, sometimes bicker over the small stuff, and always have the most fun that three days can afford.

Whether you are here for the first time or you've been with us for all of the past eight years, we will always be here to greet you at the door with a smile. MomoCon has been a multi-genre convention from day one, we like anime, games, costumes, comics and a whole lot more. If you want to express your need for neo-Victorian hoop skirts, come on down! Have a deep, abiding love for Ponies? We do, too! Too often in life we are told to push down our hobbies and interests, hide them from sight, but we want you to let that geek flag fly high and have a great time while you are here! We love you just the way you are.

Allons-y,
Jess

It has been an amazing eight year journey... MomoCon has finally 'graduated' from Georgia Tech! We are privileged to have the Marriott Marquis as our first 'home' after Georgia Tech. We have no doubt that this move will allow us to continue to grow for years to come. It has been my great honor to help guide this con as MomoCon's Director. The extra latitude granted to us by our new venue and the resources we are able to generate this year has allowed us to dream big. You will see many great things at this year's show; things that were just not possible before. While this year has many exciting new events, we've been working on more than what is on the schedule. If you look around closely, you will see hints of things to come for future years. And whether you know it or not, you have a part in that. We are listening to and learning from your opinions and comments and will use your feedback to guide the changes from year to year. I encourage each and every one of you to let me know what you think about this year's MomoCon, good or bad. Reach out to me at: chris@momocon.com. Despite our growth and the changes you see around you, the heart and soul of MomoCon stays the same. MomoCon is more than it was before, and with your support we will continue to improve and be more of what you want to see in a convention.

Thank you for sharing your passion with us, and a special thanks to all of the volunteer staff who share their blood, sweat, and tears to make MomoCon possible.

Christopher Stuckey
Con Director

We weren't a very old convention when Eric Southerland came into our life. He was excited about hosting Karaoke, dressing like a ninja, and making hilarious videos. The second convention he worked, we sang Boston together onstage, horribly off-key and shouting into the microphone together. When my dog went crazy barking at him, he'd throw his hands up and laugh, and everyone would laugh with him. I loved him, and so did his convention family.

Eric Southerland passed away this past October, and none of us will be the same without him. He did a lot to make this convention feel like home. If you've enjoyed Karaoke over the last several years, he was there to greet you with a smile and a song. We miss you Eric.

And we love you.
